The translation request:

The patient’s reports, it happened almost every day, moreover the client has three other vendors except for us.

Language pairs:

English into Chinese Simplified, English into Polish, English into Japanese, English into Korean, and so on.

Our difficult is how to get more orders. My measures are the below:

- Keep positive communication with client on phone or email to learn about our feedback, giving our resolution timely.
- Actively respond to client’s requirements.
- Help the client to solve the urgent case.
- Introduce our other languages service from time to time, let the client learn about the width of our service.
- At the last, developing or updating stable and reliable translators through the client’s feedback. Make sure the top quality.
